Nine Mile Run Watershed Management Plan

1.0 Introduction

1.1	Overview.....	1-1
1.2	Project History.....	1-3

2.0 Problems and Goals for the Nine Mile Run Watershed

2.1	Flow along Watershed Streams	2-1
2.2	Erosion along Watershed Streams.....	2-2
2.3	Water Quality along Watershed Streams.....	2-2
2.4	Urban Impacts on Watershed Vegetation	2-3
2.5	Urban Impacts on Aquatic and Riparian Habitat	2-4
2.6	Impacts on Watershed Recreation.....	2-4
2.7	Watershed Planning Goals and Objectives	2-5

3.0 Watershed Management Input from Completed Investigations and Analyses

3.1	Watershed Management Input from Stakeholders, Historic Information, and Existing Background Data	3-1
3.2	Watershed Management Input from the Hydrologic and Hydraulic Modeling Report	3-2
3.3	Watershed Management from New Field Studies, Data Collection, and Analyses	3-4
3.4	Watershed Management Input from Water Quality Analyses	3-6
3.4.1	Watershed Water Body Conditions During Dry Weather.....	3-6
3.4.2	Watershed Water Body Conditions During Wet Weather	3-7

4.0 Identification of Alternative Nonstructural Control Measures

4.1	Land Use Controls	4-1
4.1.1	Direct Regulatory Approaches for New Development.....	4-3
4.1.2	Indirect Regulatory Approaches for New Development.....	4-9
4.1.3	Regulatory Approaches for Restorative Redevelopment	4-10
4.1.4	Land Acquisition for Preservation of Open Space & Buffer Zones.	4-15
4.1.5	Runoff Control for Industrial and Commercial Sites	4-17
4.1.6	Better Site Design.....	4-19
4.1.7	References for Section 4.1	4-22

4.2 Public Education and Volunteer Programs..... 4-24

 4.2.1 Littering..... 4-26

 4.2.2 Illegal Dumping 4-28

 4.2.3 Landscaping and Lawn Care 4-30

 4.2.4 Automobile Maintenance 4-34

 4.2.5 Car Washing..... 4-37

 4.2.6 Animal Waste Collection 4-40

 4.2.7 Restorative Redevelopment 4-42

 4.2.8 Vegetation Controls and Tree Planting 4-42

 4.2.9 References for Section 4.2 4-44

4.3 Municipal Measures4-49

 4.3.1 Combined Sewer Overflow Reduction..... 4-49

 4.3.2 Catch Basin and Storm Inlet Maintenance 4-54

 4.3.3 Sewer Inspection and Cleaning Programs 4-57

 4.3.4 Sanitary Sewer Overflows 4-61

 4.3.5 Street Sweeping..... 4-65

 4.3.6 Pet Waste Ordinances 4-68

 4.3.7 Household Hazardous Waste Collection 4-69

 4.3.8 Pest Control – Control of Pesticides and Herbicides
 Used on Public Land 4-72

 4.3.9 Bridge and Roadway Maintenance 4-75

 4.3.10 Vegetation Controls..... 4-81

 4.3.11 References for Section 4.3 4-82

5.0 Identification of Alternative Structural Control Measures

5.1 Source Control Measures..... 5-2

 5.1.1 Removing Illicit Connections to Storm Water Systems..... 5-2

 5.1.2 Reconfiguring Paved Surfaces to Reduce Impervious Area..... 5-4

 5.1.3 Using Porous Pavements to Promote Infiltration 5-11

 5.1.4 Rooftop Gardens over Public and Private Buildings..... 5-15

 5.1.5 Capturing Roof Runoff in Tanks or Cisterns for Irrigation 5-18

 5.1.6 References for Section 5.1 5-22

5.2 Remedial Measures for Existing Municipal Infrastructure..... 5-23

 5.2.1 Elimination of Sanitary Sewer Overflows..... 5-25

 5.2.2 Reduction in Combined Sewer Overflows..... 5-32

 5.2.3 Modification of Catch Basins and Storm Inlets 5-35

 5.2.4 References for Section 5.2 5-38

5.3 New Regional Facilities..... 5-40

5.3.1 Factors to Consider 5-40

5.3.2 Extended Dry Detention Ponds, Wet Ponds, Detention Basins,
Dry Wells, and Infiltration Basins 5-41

5.3.3 Wetlands 5-46

5.3.4 References for Section 5.3 5-54

5.4 Stream Erosion and Velocity Controls..... 5-55

5.5 Structural Controls for Leachate Discharges 5-60

6.0 Assessment and Screening of Management Alternatives

6.1 Screening of Alternative Land Use Controls..... 6-1

6.1.1 Direct and Indirect Regulatory Approaches for
New Development..... 6-2

6.1.2 Regulatory Approaches for Restorative Redevelopment 6-7

6.1.3 Land Acquisition for Preservation of Open Space and
Buffer Zones 6-11

6.1.4 Runoff Control for Commercial and Industrial Sites 6-14

6.1.5 Better Site Design..... 6-16

6.2 Screening of Public Education Programs 6-20

6.2.1 Littering and Illegal Dumping..... 6-20

6.2.2 Landscaping and Lawn Care 6-23

6.2.3 Automobile Maintenance 6-27

6.2.4 Car Washing..... 6-29

6.2.5 Animal Waste Collection 6-31

6.2.6 Vegetation Controls and Tree Planting 6-34

6.3 Screening of Non-Structural Municipal Measures..... 6-39

6.3.1 Combined Sewer Overflow Reduction..... 6-39

6.3.2 Street Sweeping..... 6-42

6.3.3 Catch Basin and Storm inlet Maintenance 6-45

6.3.4 Sewer Inspection and Cleaning Program..... 6-47

6.3.5 Pet Waste Ordinances 6-50

6.3.6 Household Hazardous Waste Collection 6-53

6.3.7 Pest Control – Control Pesticides and Herbicides Used on
Public Land..... 6-55

6.3.8 Bridge and Roadway Maintenance 6-57

6.3.9 Vegetation Controls..... 6-50

6.4 Screening of Alternative Structural Controls..... 6-64

6.4.1 Source Control Measures..... 6-64

6.4.2 Remedial Measures for Existing Municipal Infrastructure 6-69

6.4.3 New Regional Facilities 6-73

6.4.4 Stream Erosion and Velocity Controls..... 6-80

6.4.5 Leachate Discharge controls..... 6-82

6.5 Institutional Mechanisms..... 6-85

7.0 Recommended Watershed Management Plan Elements

7.1 Institutional Mechanisms..... 7-1

7.2 Land Use Controls 7-5

7.2.1 Recommended Alternatives..... 7-5

7.2.2 Other Alternatives to Consider..... 7-7

7.3 Public Education & Volunteer Programs 7-8

7.3.1 Recommended Alternatives..... 7-8

7.3.2 Other Alternatives to Consider..... 7-12

7.4 Non-Structural Municipal Measures..... 7-15

7.4.1 Recommended Alternatives..... 7-15

7.4.2 Other Alternatives to Consider..... 7-19

7.5 Structural Control Measures 7-21

7.5.1 Recommended Alternatives..... 7-21

7.5.2 Other Alternatives to Consider..... 7-25

Tables

Table 4.1.1: Twenty Benefits of Urban Stream Buffers 4-16

Table 4.1.2: Industrial/Commercial Storm Water Practices 4-18

Table 4.2.1: Litter Prevention Resources from Businesses 4-27

Table 4.2.2: Tips for Creating More Effective Lawn Care Outreach Programs..... 4-33

Table 4.2.3: Recommendations for Reducing the Storm Water Impacts of
Automotive Maintenance..... 4-36

Table 4.2.4: Storm Water Management Practices for Car Washing Facilities..... 4-38

Table 4.2.5: Summary of Car Washing Surveys..... 4-39

Table 4.2.6: Dog Owners’ Rationale for Picking Up or Not Picking Up
After Their Dog..... 4-41

Table 4.3.1: Combined Sewer Overflow Outfalls to Nine Mile Run..... 4-51

Table 4.3.2: Sewer Line Cleaning Methods..... 4-59

Table 4.3.3: A comparison of Eleven Surveys of Residential Insecticide and
Weekkiller Use..... 4-74

Table 4.3.4: Highway Runoff Constituents and Their Primary Sources 4-76

Table 4.3.5: Watershed Protection Techniques for Snow and Snowmelt
Conditions 4-78

Table 4.3.6: Impacts of Road Salt 4-78

Table 4.3.7: Primary Components and Costs of Selected Deicing Materials 4-79

Table 4.3.8: Road and Bridge Maintenance Management Practices 4-80

Table 5.1.1: Infiltration Rates for Various Paving Materials 5-13

Table 5.2.1: Pathogens in Raw Sewage and their Resulting Ailments 5-26

<i>Table 6.1.1:</i>	Comparison of Two Site Plans	6-5
<i>Table 6.1.2:</i>	Estimates of Storm Water Removed through Disconnections.....	6-8
<i>Table 6.1.3:</i>	Screening Summary of Alternative Land Use Controls.....	6-19
<i>Table 6.2.1:</i>	Potential Reductions in Fertilizer Reduction through Public Outreach	6-26
<i>Table 6.2.2:</i>	Potential Reductions in Animal Waste through Public Outreach.....	6-33
<i>Table 6.2.3:</i>	Screening Summary of Public Education Programs	6-37
<i>Table 6.3.1:</i>	Cost Data for Various Street Sweeping Programs.....	6-44
<i>Table 6.3.2:</i>	Estimated Animal Waste Reductions through Pet Waste Ordinances..	6-52
